

IT Incident and Access Request Procedure

Document Control

Document ID	SOP-05
Title	IT Incident and Access Request Procedure
Category	SOP
Department	Information Technology
Version	1.0
Status	Superseded
Effective Date	2025-06-01
Review / Expiry Date	2026-05-15
Document Owner	Head of IT
Supersedes	None

1. Purpose

Applies to: All employees

1.1 This SOP explains how system access is requested and how IT incidents are reported and resolved.

2. Access Requests

Applies to: All employees

2.1 System access must be requested by the reporting manager through the IT Service Portal.

2.2 Access requests are normally fulfilled within 3 working days of approval.

2.3 Employees must not use the account of another employee while waiting for their own access.

3. Incident Reporting

Applies to: All employees

3.1 Employees must report IT incidents through the IT Service Portal or by calling extension 1100.

3.2 Employees should include screenshots of error messages when reporting an incident.

4. Incident Handling

Applies to: IT Support Engineer

4.1 IT Support Engineers must acknowledge Priority 1 incidents within 30 minutes.

4.2 IT Support Engineers must resolve Priority 2 incidents within 8 working hours.

4.3 IT Support Engineers must fulfil approved access requests within 5 working days.

4.4 IT Support Engineers must document the root cause of every Priority 1 incident.

4.5 IT Support Engineers must complete the IT Service Portal administration training within the first week of joining.

4.6 IT Support Engineers may use remote-support tools only after obtaining the consent of the user.
